THURSDAY, APRIL 29, 1897.

CHATS WITH OUR EXCHANGES.

The advance agent of prosperity is busier just now parceling out the loaves and fishes than he is in restoring confidence and prosperity to our languishing industries.—Orangeburg Times and Democrat.

The preliminary arrangements are being actively pushed looking to the organization of new counties with court houses at Williamston, Honea Path and McCormick. In this matter there is some interest, for it is certain that both Williamston and Honea Path cannot get new counties, and it is doubtful if Abbeville has the territory to spare that will be necessary for both Honea Path and McCormick counties. Somebody is likely to be disappointed.—Anderson Journal.

One of the best laws passed by the last legislature is that one which prohibits school trustees from employing teachers that are closely related to any of them. This does away with the job hunting feature that brings about the creation of many a new and useless school district, and does away with a vicious practice in many of the wealthier and older districts. The public cannot be imposed on by the trustee any longer in order for the trustee to provide a job for "my son or daughter."—Yorkville Yeoman.

"There is a tide in the affairs of men, which taken at the flood leads on to greatness." It looks to the Sun as if McLaurin took that tide. He has followed his first speech which was a great speech with a most clever advertisement of the South. Had he made any other kind of speech it might have fallen flat; but the second speech fits it to the first and follows as much as a prompt collection supplements a fine sermon.

Our own belief is that when the people of New England find that the South is getting her share of governmental benefits they will come trooping down, and for our part we shall be glad to see them for in a short time they become just as devoted to the South as we are.—Charleston Sun.

President McKinley is a bimetalist in chains. He desires the free coinage of silver without international agreement, but is under gold bonds not to say so. However, in the matter of this purely Pickwickian international agreement, he is free to indulge his bimetallic preference without hurt to himself or the men whose money elected him, and has therefore chosen a commission whose aspirations on the coinage question would be quite satisfactory to bimetallicists if there were any chance of their securing the realization thereof. But the mission is hopeless, and known in advance to be hopeless. The United States under Republican rule and continental Europe will not make international agreement for the free coinage of silver without the concurrence of Great Britain; and Great Britain will not con-

cur. We will sun on "ifs" and rise from table hungry.—State.

Representative McLaurin, from South Carolina, has gained more fame for himself and his State by one recent speech in Congress than any other man has done for many years past. Important truths as to the resources and progress of this State were brought out in such a way as to attract widespread attention, and in many quarters the astonishment evidenced at the facts made known is no less marked than that the man should have seized the opportunity offered in the happy manner that he did.—Anderson Journal.

It is stated that Congressman McLaurin's speech, which has been the occasion of so much remark in political circles, will be answered by Congressman Stanyarne Wilson. The latter is quoted as saying, in substance, that Mr. McLaurin's expressions have been of assistance to the Republicans, and that they have embarrassed the Democrats. We believe that Mr. McLaurin could be returned to Congress from any district in the State on the proposition he has submitted.—Rock Hill Herald.

Mrs. A. Inveen, residing at 720 Henry St., Alton Ill., suffered with sciatic rheumatism for over eight months. She doctored for it nearly the whole of this time, using various remedies recommended by friends, and was treated by the physicians, but received no relief. She then used one and a half bottles of Chamberlain's Pain Balm, which effected a complete cure. This is published at her request, as she wants others similarly afflicted to know what cured her. The 25 and 50 cent sizes for sale by Dr. W. L. Wallace, druggist.

A heavy custom duty is placed on mineral water by the Dingley bill. Many eminent physicians say that some imported water is absolutely necessary in their practice, and that the tax is so heavy that it will practically prohibit importation. This is an illustration of protection.—Winsboro News and Herald.

Congressman McLaurin is a bright young man from South Carolina. He went in with the Tillman tide and was elected attorney general of the State. He has served several years in congress. During the present session he has made the most notable speech that has yet been delivered. Ostensibly he was arguing for protection to Southern articles, if we are to have a tariff law. His remarks, however, were all in laudation of the South and the wonderful advantages presented by this section for comfortable living. He gave statistics and a great deal of valuable information which seems to have made a lodgment in the northern and western mind, for the speech is having the widest sort of publicity. It was really a great speech for the south and had no politics in it. Such speeches will produce tenfold the good for this section than will come from three or four day speeches on Spain's inhumanity and England's obstinacy.—Montgomery (Ala.) Advertiser.

Americans are the most inventive people on earth. To them have been issued nearly 600,000 patents, or more than one-third of all the patents issued in the world. No discovery of modern years has been of greater benefit to mankind than Chamberlain's Colic, Cholera and Diarrhoea Remedy, or has done more to relieve pain and suffering. J. W. Vaughn, of Oakton, Ky., says: I have used Chamberlain's Colic, Cholera and Diarrhoea Remedy in my family for several years, and it to be the best medicine I ever used for cramps in the stomach and bowels. For sale by Dr. W. L. Wallace, Druggist.

Cold Breakers! Cold Breakers! Three or four doses in time will stop "grippe" or kill a fresh cold. 25c. per box. Sold by Dr. D. C. Scott. 3m.

The Rev. W. H. Weaver, pastor of the U. B. church, Dillsburg, Pa., recognizes the value of Chamberlain's Cough Remedy, and does not hesitate to tell others about it. "I have used Chamberlain's Cough Remedy," he says, "and find it an excellent medicine for colds, coughs and hoarseness." So does everyone who gives it a trial. Sold by Dr. W. L. Wallace, druggist.

Joel Chandler Harris writes pleasantly in the Reviews of Reviews about the Atlanta Constitution office and its new chief, Mr. Clark Howell.

How's This!
We offer one hundred dollars reward for any case of catarrh that cannot be cured by Hall's Catarrh Cure.
